

I want to share with you a personal story of when my faith in God's Word was tested.

Dear Mrs. Seymour,

A few years ago, I found out I had a polyp in between my vocal cords—literally, I had a lump in my throat.

I would try to preach, but it would either be difficult for me to catch my breath or I would have to shift my voice higher to compensate for the sound it made. This was devastating for me as I wanted to preach the Word uninhibited for your good and the glory of Christ.

So in this moment of struggle, I went back to His Word and released my faith through my words – “It’s just a polyp. God has healed me of many serious things before and I believe this isn’t going to be a problem in Jesus name.”

As the days progressed, I ended up having surgery and as a result of the operation, was unable to speak for 7 days. Now, you may be thinking, “Pastor Creflo, your prayer didn’t work. You still had to have surgery!”

But God works in more ways than we could ever know and the truth is, He did heal me after those 7 days. **I was completely healed with no lingering effects!**

Soon after, I was diagnosed with prostate cancer. It would have been easy for me to doubt God in that moment but instead, I made the Word the final authority.

I locked myself in my room and saturated myself in the Word of God and His Spirit. I will never forget when the revelation came alive inside of me. I knew I was healed and I claimed it in the name of Jesus!

In the same way as a child of God, you’ve got a prescription for life that promises healing for your body, mind, and soul.

God knows you inside and out, and He heals ALL your diseases.

(See Psalm 103.)

Pain, disease, infirmities, suffering—the Bible makes it so plain that when Jesus was brutalized by the scourge, He bore all of it for us, which means that you can be healthy, whole, and totally free (see 1 Peter 2:24).

Free from pain, from disease, from sickness, from infirmities, and from sufferings forever! How?
